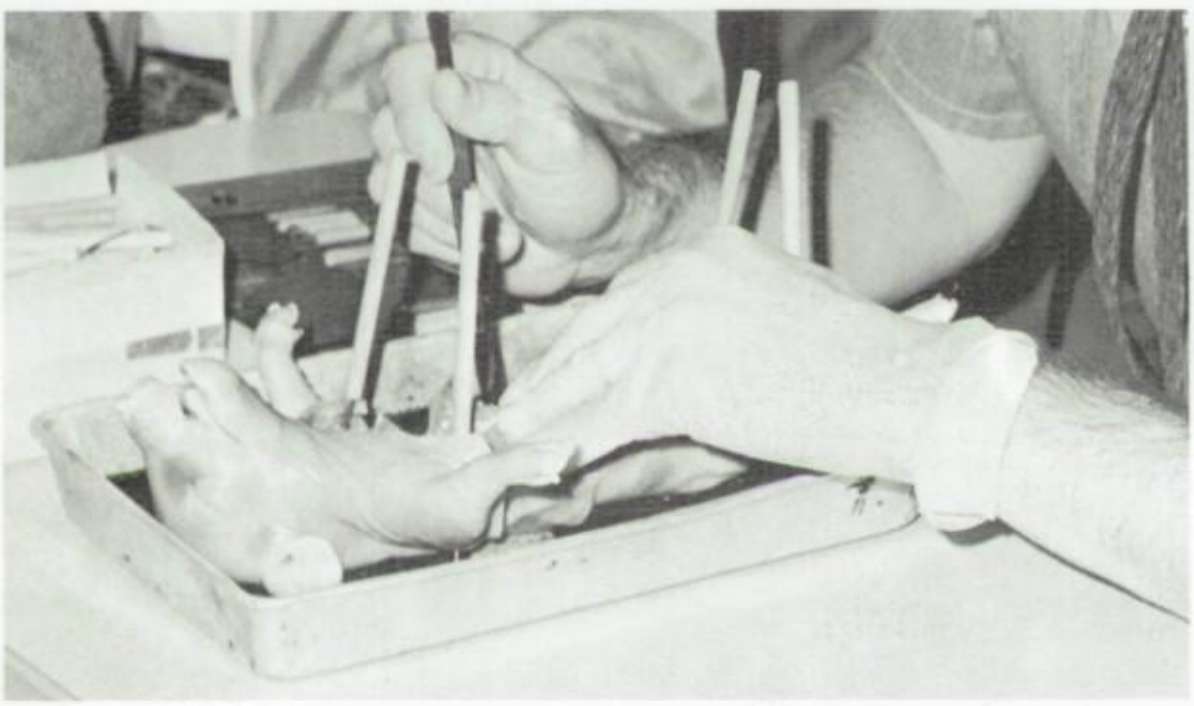
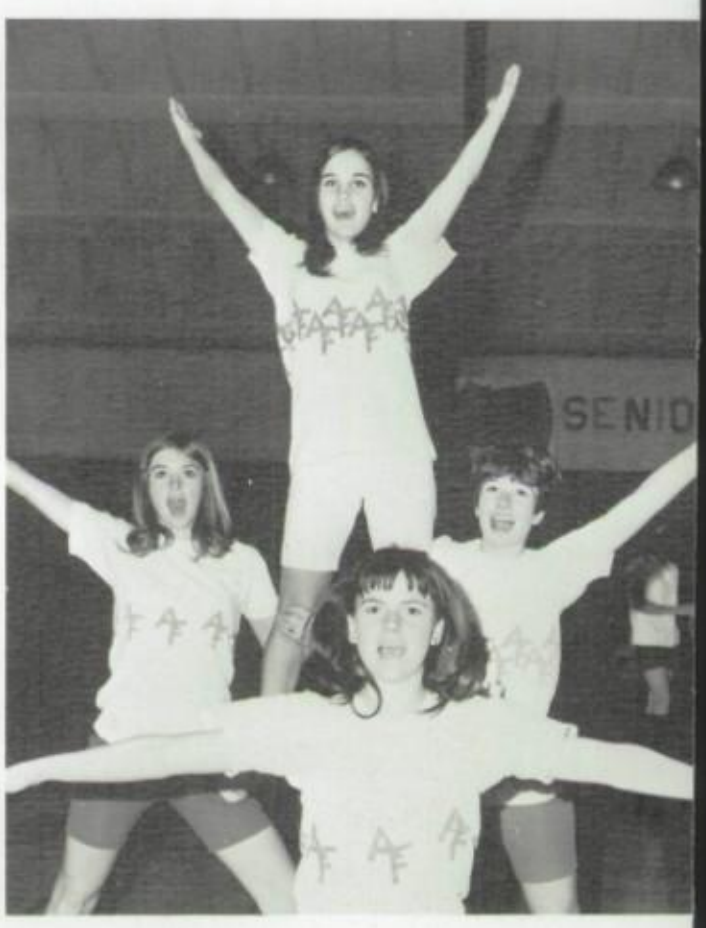
to everything there
is a season, and a time
to every purpose under
the heaven:

a time to be born, and a
time to die;

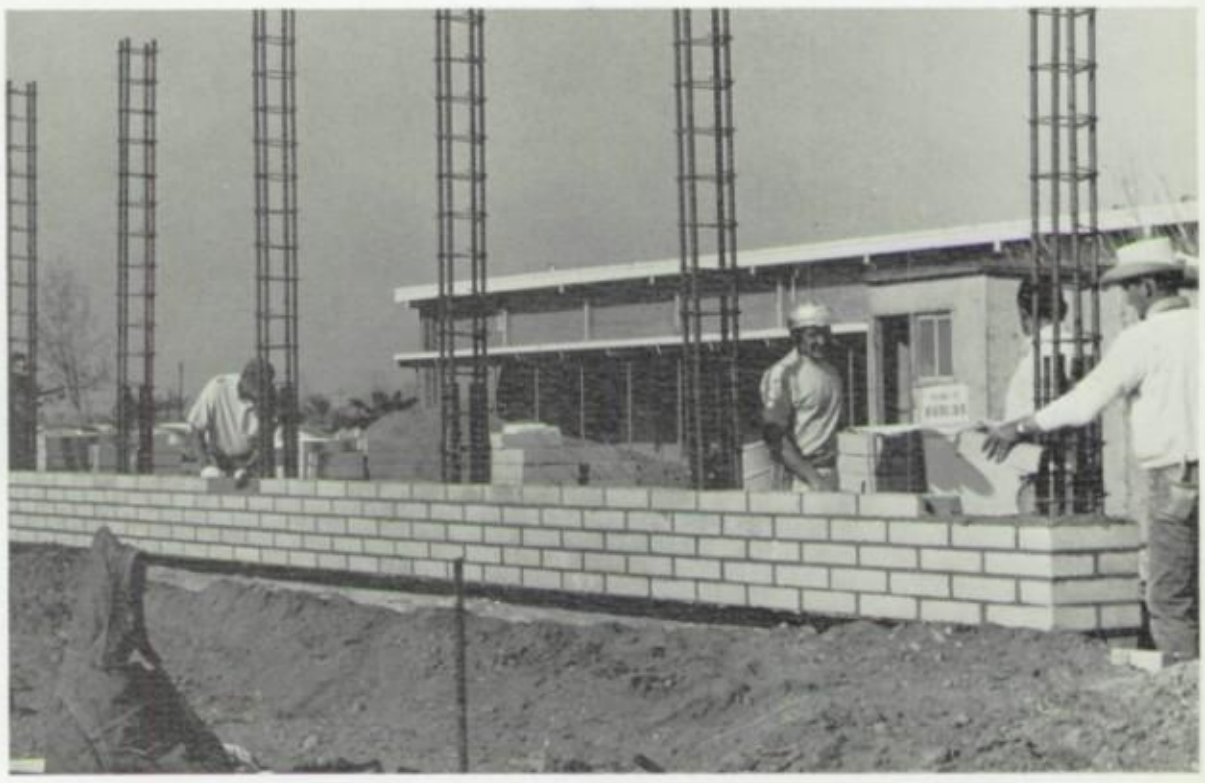
a time to plant, and a time
to pluck up that which is
planted;

a time to kill, and a time to
heal;





a time to break down, and a time to build up;



a time to weep, and a time to laugh; a time to mourn, and a time to dance;

a time to cast away stones, and
a time to gather stones together;

a time to embrace, and a time to
refrain from embracing;

a time to get, and a time to lose;
a time to keep, and a time to
cast away;

a time to rend, and a time to
sew;

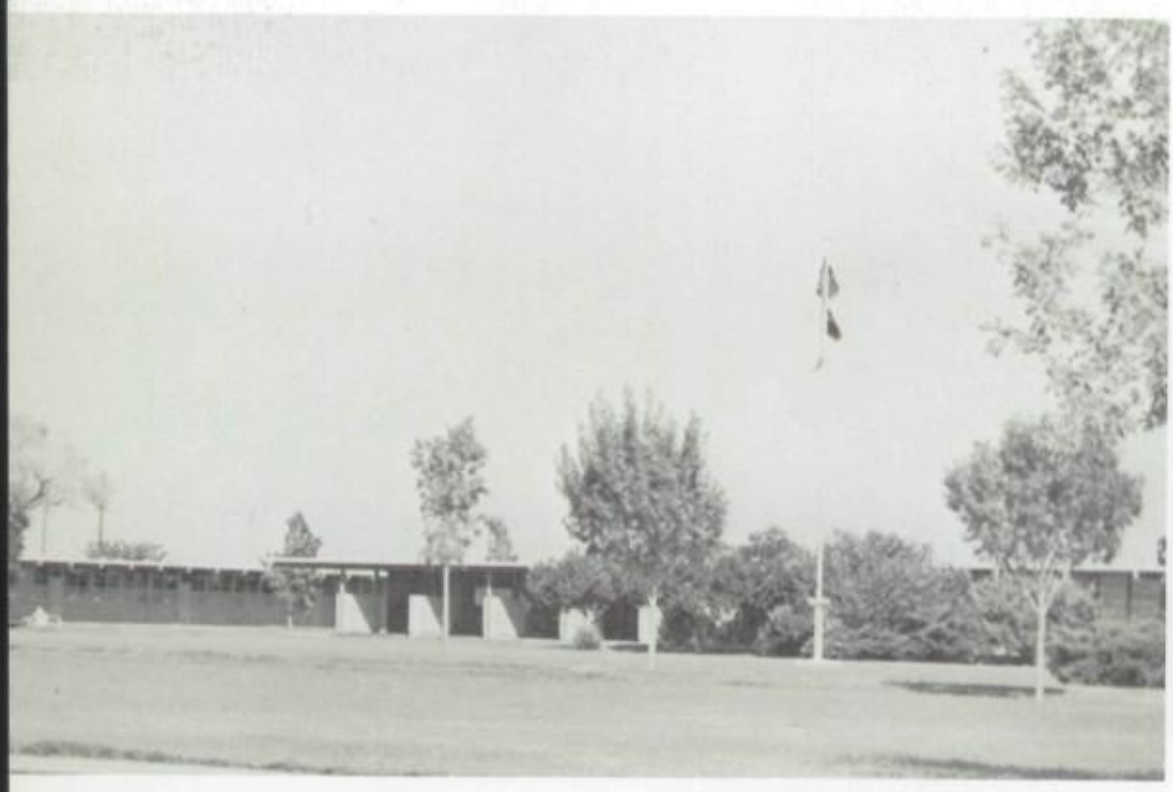
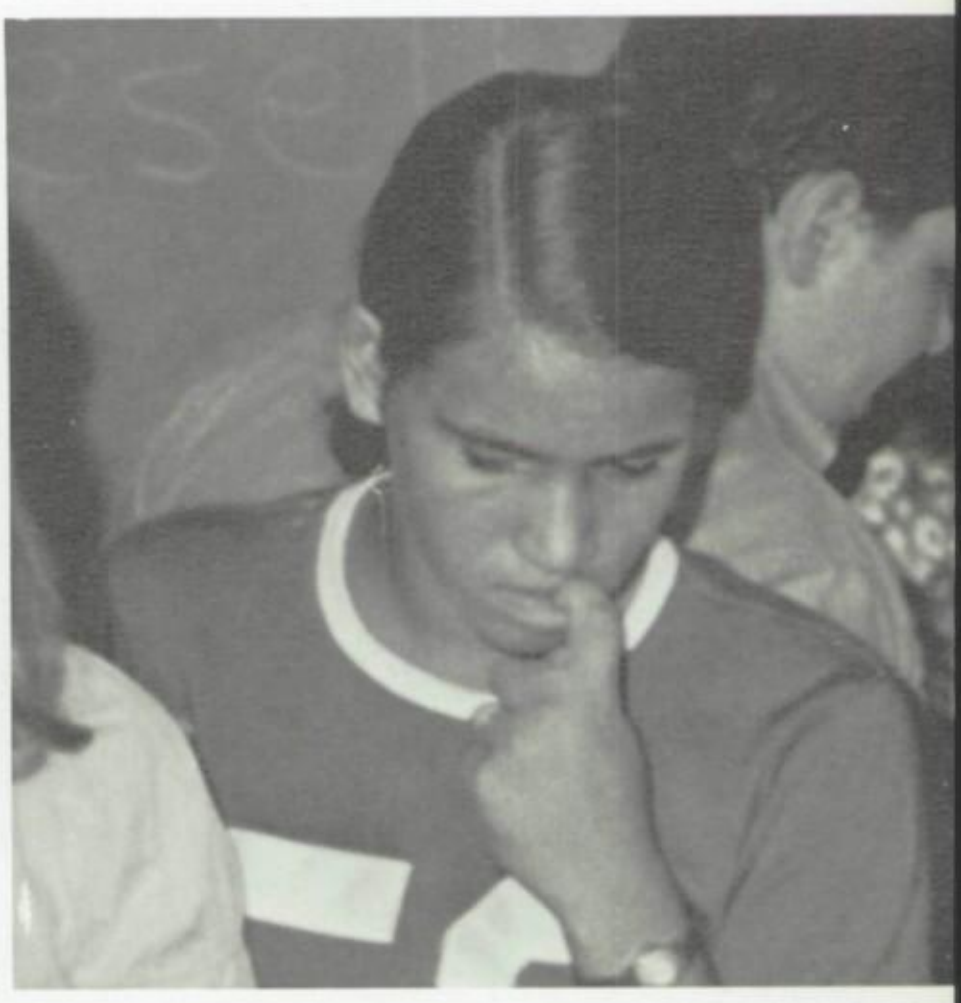
a time to keep silence, and a
time to speak;
a time to love, and a time to hate;
a time of war, and a time of peace.





SENIOR FAREWELL

Nineteen Seventy may be remembered as a great year for sports, fashion, or wine. But at Agua Fria it will, hopefully, be a year remembered for its graduating class; as, we, the graduating class, will remember 1970 as the greatest year to be seniors.

Most of us have attended four years of pep assemblies, ball games, and dances here at Agua Fria During these years we bounced through good times, stumbled through bad, fought our way down crowded halls, and tried not to walk on the grass. And even after all this, a considerable number of us are finally graduating.

It is, of course, an understatement to say that we've learned a great deal during our stay at Agua Fria. Besides our textbook studies we've acquired and accomplished in various other areas. One such area is that of dramatic improvisation. Most of us have used this when signing out through the attendance office. Mrs. Humphreys will most certainly attest to the fact that in the past four years our class has suffered more headaches and signed out for more doctor and dentist appointments than any other on record. Another such area is music with our own Mr. John C. Faris screaming, grimacing, and leading us to many a superior rating in competition. Many times we have learned via the new and unusual methods of Frau Svendson, who is famous for her "learning experiences", (that always comes complete with punch and goodies). Even Mrs. Brown's library afforded great chances for learning where Mary went over the weekend, who John took out Saturday night, and who read PETE THE PUNTER when he was a Junior. And from Mr. Horn we learned how to stand still and make it to class on time.

For all this and much more we thank the faculty, administration, and underclassmen for the exuberant four year scene upon which the curtain is now falling.

Sports

football

The game is never over
No matter what the scoreboard reads
No matter what the clock says.
The secret of the game is to do ones
best to persist
to endure
to strive
to seek
to find
and not to yield.

Agua Fria started the 1969 football season with a bang. The boys played aggressive ball to roll up impressive, early season wins. The Owls lost to Winslow in a hard fought, well played game. This loss knocked them out of a possible district championship. The Owls wound up the season with an 8 - 2 record. Mr. Horn can look forward to a prosperous season in 1970, as he has many returning lettermen.

Our "blitzing" Donny Washington in action.

ARIZONA AUTOMOTIVE INSTITUTE, INC.

BUSINESS COLLEGE

840 NORTH CENTRAL AVENUE PHOENIX, ARIZONA 85004 TELEPHONE (602) 252-2331

Dear High School Senior:

The time is not almost upon you to select a field of endeavor to earn a living and make your mark upon the world. IT IS HERE NOW! Don't make the mistake of waiting until after graduation to get all the information about the field you desire. DO IT NOW or you may find yourself being too late to get into a training course for this field or maybe even worse, having to enter training in a second rate school.

"Gregg" is synonymous with quality and proven performance.

The choice of a career, I believe, should be made scientifically. By this I mean a career that has a big bright future as well as a very lucrative pay. Also your career field should have one of the largest demands for skilled personnel. The solution is now clear — get the facts and then get the skill and then "swing."

SECRETARIAL AND ACCOUNTING will more than admirably meet all these requirements for a career.

FOOD FOR THOUGHT:
Knowledge in the field of secretarial or accounting is a life long personal asset.

Acquiring the knowledge of secretarial or accounting at Gregg *now* is the equivalent of a lifetime pass not only to enter a highly skilled position now, but to easily enter or re-enter at anytime in the future.

As I stated at the beginning of this letter the time is here now to get the information and select the career field you desire to enter. If you will please fill out and mail the enclosed card I would be extremely pleased to supply you with all the information on GREGG BUSINESS COLLEGE'S training courses for the field of SECRETARIAL AND ACCOUNTING.

Yours very truly,
GREGG BUSINESS COLLEGE, INC.

Dear High School Senior:

The time is not almost upon you to select a field of endeavor to earn a living and make your mark upon the world. IT IS HERE NOW! Don't make the mistake of waiting until after graduation to get all the information about the field you desire. DO IT NOW or you may find yourself being too late to get into a training course for this field or maybe even worse, having to enter training in a second rate school.

The choice of a career, I believe, should be made scientifically. By this I mean a career that has a big bright future as well as a big bright pay. Also your career field should have one of the largest demands for skilled men. The solution is now clear — get the facts and then get the skill and get on board.

AUTOMOBILE MECHANICS will more than admirably meet all these requirements for a career. Read these printed facts about the automobile mechanics outlook!

Wanted: Men for jobs that pay up to $8,000-$10,000 a year. The job — Automobile Mechanic. Such jobs are going begging.

In the U.S. there is only one half the number of mechanics needed to properly maintain the car population and the shortage is rapidly getting worse.

For beginning jobs employers prefer young high school graduates who have an understanding of automobile repair and operation and who like mechanical work.

Number of automobile mechanics will have to increase rapidly during the 1970's and in the longer run.

As I stated at the beginning of this letter the time is here now to get the information and select the career field you desire to enter. If you will please fill out and mail the enclosed card I would be extremely pleased to supply you with all the information on Arizona Automotive Institute's training courses for my field and I hope yours — the field of AUTOMOBILE MECHANICS.

Yours very truly,
ARIZONA AUTOMOTIVE INSTITUTE, INC.

When You Set Up Your Household
APS Electricity
Will Probably Cost Less Than it Does Now

At least, that has been the pattern over the decades. Arizona Public Service charges less per kilowatt for electricity today, than it did 20 years ago. And less then, than 30 years ago. ■ As a new homeowner, you'll want every break you can get. APS is happy to provide one more.
